

**TETON HOMES**

AMERICA'S NUMBER ONE FULL TIME RV  
2005 5TH WHEELS - 38TH YEAR

# Royal

Exceptional Comfort

Royal Tecon's bedroom (far right) is a sweet dream come true with a marvelous combination of comfort, beauty and function. Both Royal and Grand have the bedroom and bathroom on one level in Tecon's LevelOne master suite.

An inviting queen bed has a manufacturer's limited ten-year warranty. A chic bedspread, dust ruffle, pillow shams and throw pillows are beautifully matched in Mossbadow dyes with oak trim.

**New this year is a handsome wood and fabric headboard (far right) that complements the window valances.** A beautiful blend of windows, shelving and mirrored cabinetry surrounds the bed for added storage and superb style.

Royal's full-wall dresser (this page) has a functional, flexible choice of either optional slim closets or drawers and shelves, or the standard drawer with in-fold mirrors, a multi-purpose drawer for use as vanity or desk, storage, a six-drawer dresser and a handy pull-out hamper. A cedar shoe shelf is standard in the front mirrored wardrobe. At right is Royal's premium under-bed storage compartment with two 33-gal. bins. To the right is our new optional solid oak headboard.

Model - 37' Freedom 373 Royal with 10-drawer dresser and oak columns.

Standard Royal Headboard

The optional solid headboard, raised panel headboard, with fixed foot posts, shows above its natural maple, is available on all model lines.

Outside, Royal is sleek and beautiful with a choice of full body paint designs, all with sweeping painted graphics and protective clear coat. Optional awnings are color-matched to exterior paint schemes and feature a wind sensor that automatically closes the awning in sustained winds, an automatic water release and a hand-held remote control.

30" tall luggage door

The 37' Freedom 373 Royal has a champagne body with graphics in contemporary shades of black, cream, light rose and laser brown. Interior headroom is 67" and a 36" storage compartment is included under the bedroom seat.

"Last winter we camped home in Alaska and put our Tecon to the test. It came through with flying colors even during a cold snap with lows at -42°F and highs at -31°F. We are impressed with your product! Should we decide to buy another GRV, would you say we'll be a Tecon?" David and Helen Deak, Sterling, Alaska

# Three In One Floor Plans

*Royal*  
Unsurpassed Flexibility

There are plenty of reasons Truon is America's top full-time RV and one of them is our boonsyle Three in One floorplans. Only Truon gives you flexibility to change your furniture placement along with your mood. The Royal Truon in Moonshadow drive with oak trim on these pages is shown with a rear dining room (far right), a rear living room (top left) and a rear lounge floorplan (bottom).

New to the Royal for 2005 are living and bedroom slides that feature a hardwood upper fascia with dentil mold trim. Large crown molding forms a lighted shelf - the ideal place for treasures and mementoes. Also standard are a ceiling fan, ultra plush nylon 50-ounce machine patterned carpeting and elegantly coordinated dcor with nickel plated lamps, an entertainment center, four plushly padded dining chairs with Queen Anne legs, Cathedral style overhead cabinet doors, some with baroque and bottle glass doors loaded with pewter items as standard in the Royal.

Choose from three different cabinet/accnt hardwoods: standard oak, optional natural maple, or maple with cherry stain. Molded solid surface countertops are coordinated with the wood color.

Wood also features corbel blocks at the top side of elegantly curved cabinet columns that add interest and elegance to an already exciting room.

Rear Living Room

Rear Lounge

Rear Dining Room

Model - 37' Inverter 573 Royal with Moonshadow drive and oak cabinets

You're bound to love one of our three valance systems. In 2005, changes of fabric valances and sideboards, which are standard in the Superstar and Grand Truon sets. The combination fabric valance and sideboard with required hardware.

Now are standard in a Royal and optional in the Grand and Experience models. All wood valance and sideboards are only available in an optional feature in all 3 product lines. Functional, attractive and highly placed, it adds complete look.

All wood valance and sideboard, optional all models

All fabric valance and sideboard standard Grand and Experience

Wood & fabric valance and sideboard standard in Royal

# Grand

The Livin' is Easy

Model - 30' Seaside XTi Grand with upgraded Summer  
When Contemporary decor, cabinetry optional maple with  
cherry stain and valances optional wood and fabric.

Decor - special upgraded features when Contemporary

This Seaside Grand has a  
queen bed with a fabric  
wrapped headboard, European  
style leather chairs and  
comfortable 74" casual back  
hike-a-bed sofa.

European style recliners available only in the  
Seaside Wheat decor.

"After 30 years of living with other brands,  
we finally did our homework! Our Trion  
gives me the large kitchen I always wanted.  
John gets a large storage area and triple  
axle. We both have exactly what we want in  
our beautiful Grand L-Series. We absolutely  
love our Trion. It is a such a comfortable  
and cozy home."  
Joyce and John Karbach 46th, NY

Model: '97 Frontier 333 Grand with Storage Base decor, cabinetry, optional maple with cherry stain and valances, optional wood and fabric.

Optional built-in clock stereo CD player

The livin' is easy in a spacious, luxurious Grand Series. Show your style preference with a choice of leather or traditional reclining lounge chairs in a choice of decor colors. Amenities include an optional coffee table and end tables, **nickel-plated lamps**, **beautiful 45-ounce plush carpeting**, and much more (see pages 18 & 19 for a complete list). A new optional bed-room radio (upper right) delivers beautiful sound for your listening pleasure.

Decor - Storage Base

Adjoining the bedroom in Grand's LevelOne suite is a large 38" x 56" radius shower stall with glass and brushed nickel doors. The lavatory has a solid surface countertop with an integrated sink.

A separate toilet room adds convenience and lets two people use bathroom facilities at the same time. **Available on all Series is an optional padded easy-clean vinyl ceiling for excellent noise abatement.**

At the touch of a button, this standard hydraulic jack quickly levels your motorhome.

76" wide luggage door.

This '97 Frontier 333 Grand features 76" luggage door that conceal a huge storage compartment. The gleaming white fiberglass exterior is highlighted by graphics in laser brown, light taupe, canyon red and black cherry with matching awnings.

# Grand

Welcome Home!

Tucked inside the optional kitchen island is a special storage place for a washbasin.

Standard in Yon Grand and optional in Experience is a decorative all wood island. It goes with Grand's interior for the elegant touch.

The 16' Liberty STS Grand (at left) features oak cabinetry and Majestic Mist decor. This model has a spacious side island kitchen with an optional island (foreground) that significantly increases counter space. **New this year are sweeping 2-shaped edge edges on kitchen and both solid surface counters.** Also shown is a functional and beautiful optional ceiling of light, remarkably generous storage, an optional 3 burner cook top and optional convection microwave. At left is Grand's large mirrored wardrobe with inside shelves and lights. The bedpost, theme and dust ruffle coordinate beautifully with the optional wood and fabric window treatments.

Model - 16' Liberty STS Grand with Majestic Mist decor, oak cabinetry and optional optional wood and fabric.

This beautiful sculpted rug is color matched to your Yon's decor. The sculpted rug is optional in the Grand and Experience and standard in the Royal models. The center pull-out drawer has built-in storage and a mirror for use as a desk dresser or vanity. Side and center mirrors connect to a functional three way mirror.

Model - Majestic Mist

# Experience

Luxury 365 Days a Year

Whether you love a winter wonderland or warm ocean breezes, your Teton can handle it with an optional Arctic insulation package that keeps your plumbing from freezing up. The package includes self-regulating heat tapes on plumbing lines and dump valves located within the frame, dual-power thermostatically controlled heat pads on the bottom of its frame tanks. Check the standards and options list on pages 18 & 19 for additional Arctic package amenities and enjoy your leisure time and your Teton wherever your travels lead.

This all-new heavy duty entry door with extra-heavy aluminum construction, which provides a water and air tight door, operates smoothly and quietly. A rotary cam lock offers extra security. Inside, wood trim that matches your cabinetry adds beauty and interest.

New thicker flooring for wear/entry steps are 1/2" deep (most others are 1/4") deep for extra grip and soft foot wear look.

When it's chilly outside, the optional lighter block is easy to look and feel in your Teton.

The standard wood trim for the Experience is wood and fabric is accented with engraved corner blocks.

## Your Home for all Seasons

Model: 30' Freedom 370 Experience with optional upgrade. Lighter block, cabinetry optional, maple with cherry stain, optional wood and fabric corner, blocks. Design optional of wood with fabric exterior.

Stunning decor, plentiful amenities, terrific storage and well-thought out floorplans combine to make this Teton an Experience you'll love. Feast your eyes on such details as brushed nickel lamps, a flat screen TV, sculpted edge-countertops, and unsurpassed storage. This is a great place to call home.

### TETON BONUS

"Our dealer and the factory staff worked closely with us to ensure that our 2nd Teton was everything we wanted and needed for our full timing and cruising lifestyle. Their attention to detail and our wishes helped make our 'home' truly special. Bill and Carol Place Livingston, TX

This 30' Freedom 370 Experience has a bright white exterior highlighted with sweeping graphics in several shades of silver, grey and dark blue. Storage doors are 10" tall and conceal extra-large storage compartments.

# Experience

You Can Afford a Teton!

All drawers feature heavy duty ball bearing full extension drawer guides.

At left is Teton's extraordinary pantry with 24" drawers that open fully for easy viewing of contents. Additional storage is nothing short of phenomenal with plenty of cabinets and drawers.

Choose your favorite Teton floorplan - including the Three in One style - for Royal, Grand or Experience - and start packing for your next adventure.

New this year in Teton bedrooms is an optional ceiling-mounted LCD flat screen TV which includes a separate DVD player. When not in use, the screen folds flat into the ceiling, mounting the TV on the ceiling opens up additional storage space in the cabinets.

Shown below is a large lavatory featuring a solid surface counter with an integrated sink. This bedroom decor is Desert Sand with optional natural maple cabinetry.

Decor - Desert Sand

Experience is Teton's lightest and most affordable home, featuring outstanding fit and finish and numerous amenities.

Our smaller Experience models can be towed with a 3/4 ton heavy duty pickup! This model is a 36' Laramie X13 with Desert Sand decor and optional natural maple cabinetry. An optional padded vinyl ceiling provides superb noise abatement and easy care. Teton kitchens are part of a hidden slideout system that greatly enhances living area. At left, notice the o-shaped sweep of the ogee-style solid surface counter with matching sink cover and optional flip-up extension for greater counter space.

Teton's optional ceiling of light illuminates your kitchen workspace

beautifully. At left is Teton's extraordinary pantry with 24" drawers that open fully for easy viewing of contents. Additional storage is nothing short of phenomenal with plenty of cabinets and drawers.

Choose your favorite Teton floorplan - including the Three in One style - for Royal, Grand or Experience - and start packing for your next adventure.

All models feature Teton's beautifully crafted raised panel door and a handsome mirror with wood cross bars.

This 2011 Teton boasts our new optional full body paint scheme which combines a black and golden champagne body with graphics in silver and vanilla. Wrap-framed windows complete the look.

## Built to Withstand the Elements 365 Days a Year

Tetco's T-joint roof system is one of the lightest, strongest and best insulated in the industry with a composite R-value of 25.

EGG insulation (ethylene glycol resin) with asphalt roof-coated vapor barrier.

Physwed T-joint allows every 11 inches.

Large roof vents are constructed with stainless steel framing strength from front to rear providing unobstructed air flow to all areas of the coach. 10" lengthwise insulation is applied to the top and bottom of these doors.

Tetco's central air conditioning fan-duct system has a 70% sound reduction from most roof-ducted air-conditioning systems.

High glass fiberglass for an exceptional window look and weathering quality.

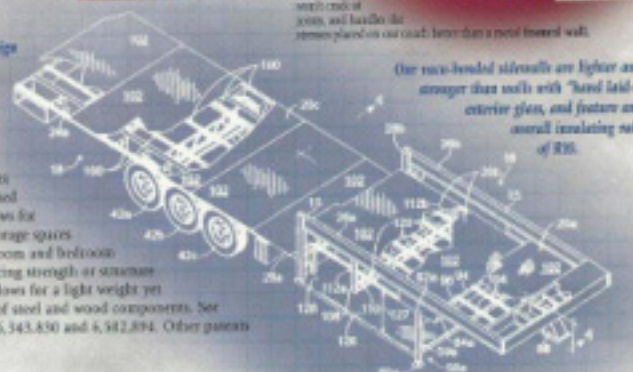

Shingles and foam panels are manufactured to form a one-piece exterior skin by joining the panels into the wet Shingles and foam bonding them together. The one-piece composite is then applied to the reinforcing joists of the wall frame. The result added structural integrity and durability to the exterior.

Downward drawer assemblies are coated to last and glide with no roof space restricted double-wide drawer pulls. Available in the local only.

Two-piece vinyl cabinet face frame hinges mean there are no visible hinges or bolts between the cabinet and the wall.

Our patented chassis design allows for maximum storage in our EGC & EML® space, over again setting the industry standard in storage.

Tetco's team of designers have developed a patented unique chassis that allows for Tetco's EGC & EML® storage spaces below the raised bathroom and bedroom floors. Without sacrificing strength or structure the patented design allows for a light weight yet rugged superstructure of steel and wood components. See U. S. patent numbers 6,343,830 and 6,342,894. Other patents are pending.

Vinyl ply film roof membrane, which will not chink, leak, rot, or discolor, has low weight but exceptional strength and is warranted for 17 years against wear leaks.

Back frame ventilates for our ventilation and ventilation system, which eliminates condensation and deterioration and helps maintain even temperatures inside the coach.

Gel-coated fiberglass reinforced gelcoat case join the roof membrane to the exterior wall.

Kit loading under the roof ply film membrane provides superior bending strength and gives greater resistance to punctures and tears.

Oriented strand board (OSB) roof sheathing secured with glue and screws to subfloor. These panels are 24" long so there is only one seam in the entire roof.

V-Beam pad for extra insulation and sound absorption.

Bitulux adhesive used over the entire area of foam components in roof system to seal against wind composite elements.

Our roof-bonded aluminum are lighter and stronger than roofs with "hard laid-up" exterior glass, and feature an overall insulating value of R36.

Roll with slide panels for easier access to storage panels.

11-gal. 14-gal. and 18-gal. storage bins shown.

Optional sliding storage bins 10" clearance for access and loading from either side of the coach.

Completely level floor! One side for legs (rests in other brands).

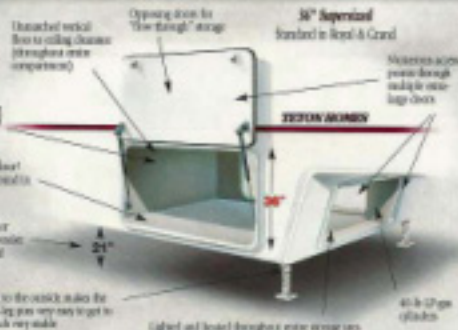

Low ground-to-floor spring making it easier to load and unload your storage.

Roll top, light rest to the coach makes the spring loaded locking pins very easy to get to and makes the coach very stable.

Lighted and heated through access storage area.

4 x 12-gal. cabinet.

TETCO'S  
**BIG-TALL**  
STORAGE  
U.S. PATENT NOS. 6,343,830 & 6,342,894

## The Ultimate in RV Storage

You won't believe the amount of space our Big and Tall Storage® system provides! Lower ground-to-floor clearance, access points through multiple doors, a level floor and opposing doors for flow-through storage makes your Tetco incredibly easy to load and unload. Check out the comparison of our storage versus traditional RV storage shown at the bottom of the page and consider all the gear we parked into just ONE Tetco® model (at left), about twice as much as would fit in other RV brands. Want the ultimate in ease? Ask about our optional sliding tray that can be fully extended for access and loading from either side of the coach.

RV's copied by first through date and name.

TETCO'S  
**BIG-TALL**  
STORAGE  
U.S. PATENT NOS. 6,343,830 & 6,342,894

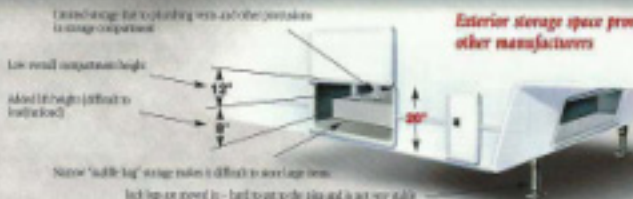

### Standard in Superior

Our storage is easy to open the large hinged doors and hold them open or shut.

Numerous access points through multiple one-lap doors.

### Exterior storage space provided by other manufacturers

# Three In One Floor Plans

Take the guess work out of choosing a floor plan by rearranging your furniture to fit your view.

*Reliance limited (LTD)*  
available in Royal and Grand

The Royal and Grand models feature the *LevelOne Suite*—a luxury master bedroom and bath all on one level with a 6' 7" ceiling height.

TO	OS	LS	
			compartments on a pull-out tray
			7.2 kw Onan Mariposa Gold generator-gasoline with 1.6 gallon fuel tank
			6.5 kw Onan Mariposa Gold generator-20 gal. with 11-b liquid withdrawal LP cylinder
			11-watt side directional light and dome-type light combination
			Front jack switch concealed behind a lockable door
			Two 41-amp solid state 12-volt power converters (delivered with inverter option)
			33-amp solid state 12-volt power converter (delivered with inverter option)
			Screen 132-watt incandescent patio receptacle near back step
			Whole-house surge protector at main 120-volt breaker panel
			12-watt master kill switch located in luggage compartment
			Detachable 20-amp power cord
			Down coast side compartment with lockable door and bottom bed
			Dark chrome casters, push table and satellite dish (optional construction are concealed from view behind a door)

### INTERIOR

			Full body paint with clear coat - doors of color graphics are painted on
			Partial exterior paint - lower side only not in vinyl graphics
			Fronted domed ceiling lights over both side matches full profile
			Rear ladder with removable center section for unobstructed view from bay windows (roof rail also standard on Royal models)
			J-rail along the roof edge (jumper) w/extra dividers at each end
			Full over the slide-out seal opening
			One-piece stainless steel gal-coated smooth fiberglass siding
			Insulated fiberglass front, rear, and underdeck caps, inside skins, covers and step collars
			Dark tinted flush-mount/privacy glass dual panel slide windows with valance covers with no external covers
			GL-20 tinting on all windows
			Lead-A-Hand sliding handle
			Alwood heavy duty reinforced entry door with rotary cam lock obscure windows, heavy duty screen door and separate deadbolt lock. The entry door is 21" tall, the tallest in the industry, and the windows have an aluminum frame which won't pillow with age. The exterior skin is like the fiberglass siding so there are no glue lines exposed in the elements going with age.
			AAI Weather Pro-elastic side awning fabric color coordinated to match the exterior graphics color scheme
			AAI manual window and full width rear bay awnings in matching fabric (single win door awning covers both windows in the living room slide-out)
			Big & Tall Storage™ with 30" tall luggage door, the tallest in the industry
			Big & Tall Storage™ with 30" tall luggage door
			Lower action Softouch adjustable luggage door locks with positive seal
			Car straps to hold open the large luggage doors
			Insulated extra heavy duty valance covers luggage doors. The exterior skin is the same as the fiberglass siding so there are no glue lines exposed in the elements going with age.
			Capriote, lighted and heated basement storage compartments with sliding, carpeted panels which cover all electrical and plumbing
			Low profile pull-out storage tray in basement storage area slide ways by model
			Fiberglass rubber trim out the rear line of the roof

### INTERIORS

			80" ceiling height in living area
			67" ceiling height in bedroom and bathroom area 7" slope at the front washbowl
			67" ceiling height in bathroom and/or at bedroom area (60" ceiling height in bedrooms at forward part of bedroom)
			Cabinet construction in kitchen slide-out conceals the fact it is a slide out and appears to be part of the room
			Solid surface sink covers and a hinged solid surface range over old counter top option
			Garbage bag rack located on the back of the door below the kitchen sink
			Wood kitchen counter with water/sewer storage at lower end
			Solid surface flip-up counter extension on end of kitchen counter (No Sandstar)
			Barbeque interior assist handle at entry door
			Solid-honeycomb cabinet face frames through out
			Full-out keyboard drawers with sliding lid at the entertainment center (NA in Florida)
			Desk with windows in kitchen slide with the drawers and storage below (NA, Scottsdale or Newcastle)
			Concealed European-style cabinet-door hinges except pantries
			Heavy-duty full bearing full extension drawer-glide suspension system
			Draw-tailed drawer box construction
			24" long drawers in the kitchen & pantries
			Adjustable pull-out drawers in pantries
			No drawer drawer in bedrooms with clothes hamper and sliding mirror panel that conceals the window & vanity make-up drawer
			Two bedroom dress chest drawers with two adjustable shelves and a clothes bar on the ceiling with a six drawer dresser below with vanity make-up drawer and hamper, a sliding make-up mirror that conceals a window and TV cabinet above with

TO	OS	LS	
			wood screen window door. The TV cabinet will accept a 17" built-in TV
			Slit doors with two drawers and one shelf area in either or both dress chest drawers (requires the chest drawer option)
			Glass shoe shelf in front mirror washbowl
			Sink top full width below kitchen sink - fits open
			Bevel slide-out TV tray in living room
			Full-way solid oak raised panel doors covering TV area in living room (NA, Scottsdale or Newcastle)

## 2005 Teton Standard Features and Customer Comparison Check List

This applies to all Teton Model Lines – Royal, Grand, & Experience

Features	Customer Value	Teton	Others
<b>CONSTRUCTION</b>			
Corrosion anti-ventilation system	Eliminates condensation, dehumidifies and helps maintain even temperatures.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Self-backed vinyl poly film roof membrane	12 year manufacturer warranty against leaks and wear/tear, fade, mold or discolor like the EPDM rubber roof.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Two large opposing slide-outs	Creates spacious great room designs. Dining slide-outs have flush floors.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Four bay window available in most floor plans	Offers more light, makes the room feel larger and offers a panoramic view. The floor and sill the best. Available with an optional full width over bay window covering.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
All kitchen slide-outs designed with the hidden slide-out residential look	The kitchens are built into the slide-outs, leaving more floor space, giving you a residential look.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Two beveled laminated wood framed sidewall construction	Increases insulation value. It's stronger, more solid, lighter and more moisture proof than aluminum framed walls.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
All weather design	Survives 365 days a year, great for fall timers.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
All heating and water tanks are in a heated space (available anti-parkage for sub zero weather)	Helps prevent against freeze-up. Chug-free tanks.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
All models are 32' wide body	More maximum spacious floor plan designs.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Hydraulic jack legs located at outside perimeter	Flat, strong, rugged, equalizing system providing maximum stability and access. 30,000-lb total rated capacity.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Hydraulic slide-in mechanisms with dual cylinders on the 11 slide-outs independent room control	Quieter, quieter smoother with a manual override and a much better seal than hydraulic with single cylinders.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Kitchen slide-out floors are insulated with a high density foam insulation.	Makes it easier to heat and cool and eliminates condensation problems.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>EXTERIOR</b>			
Dual pane insulated windows with GL30 tint (optional on Experience, and Grand)	Cuts down on ultra violet and helps reduce sun rays. Keeps your home cooler in summer, warmer in winter and you don't have to worry about solar storm windows. No exposed screws for better appearance.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Extra thick gel-coated on-roof fiberglass siding	Less fading, easy to repair, more durable and easy to clean.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Gel-coated roof eave caps joining the roof membrane to the gel-coated siding.	Easy maintenance, smooth sleek looking concealed/hidden component parts meet scrape from branches and has no visible, bubbles or flaws.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Extra thick gel-coated 2" eave cap with aluminum framed overhead windows with rotary cam lock	Easier, safer access, finish matches siding and won't fade or discolor, flush into the design with no exposed exterior screws, easy to open and clear and is 100% weather tight when closed.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Heavy duty gel-coated baggage doors with gas shocks and adjustable lower latches	Easier, safer access, finish matches siding and won't fade or discolor.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Wide track chassis	Stronger, lighter with superior handling characteristics.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
1-1/8" x 12-1/4" forward self adjusting booms with 1-2 tube boating	Better stopping performance, safer and requires less maintenance.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Tremor Rig & Tail Storage offers full width, full height, flush floor, flow through, extra large basement storage with overhead door	Largest, unobstructed storage capacities available. No plumbing, wiring or heat ducts in the way. Three-inch full doors on Experience and 36" full doors on Royal & Grand.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Detachable over roof access ladder	Additional safety and security, does not obstruct the panoramic view.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Folding hand-a-hand handrail	Safety, convenience, and easy access.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Hickory Spring for over entry steps triple folding	2" deeper step tread makes entry and exit easier and safer.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>INTERIOR</b>			
3' headroom in main coach and 6' 3" headroom in living areas, flush floor decks	Enhances the spacious interior with taller ceilings and larger windows.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6' 2" headroom in the bathroom and bedrooms in houses new & exclusive One/One later	Transforms the area into a spacious master suite all on one level standard on all Royal and Grand models. Experience has one step in the bedrooms.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Features	Customer Value	Teton	Others
<b>INTERIOR (continued)</b>			
One piece molded buttresses with foam and corner top with a 2 1/2" backglush and Designer leather corner tops with extra deep foam sides (not finished with cabinet wood color)	Enhances the spacious interior while offering complete privacy.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Designer day/night shades with black out feature (except none listed in kitchen and bath)	Enhances the spacious interior while offering complete privacy.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Round dining table with leaf	Adult residential appeal and seating for 4.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
One piece stainless padded fabric ceiling material	No rim strips or accellings, built-in stain, clean contemporary look with improved insulating and sound-deadening qualities.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Fixed heated roof mounted control air conditioning	With built-in supply air duct and the system air also ducted in the ceiling for air conditioning, less quiet and more efficient. More uniform temperatures are achieved with less degradation.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
12 gel gel-coated swim heater	Warm hot water for longer showers.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Residential dual sided roller shades	Maximum residential comfort and seating flexibility meets individual needs and lifestyle of virtually every lifestyle.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Two attractive designer interiors to choose from with 11 floor plan variations	Something to please even the most discriminating buyer.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
One-piece residential cabin fiberglass corner tub and shower with full height glass enclosure	High-end residential appearance, spacious open design with lots of elbow room, new graphics and easy maintenance.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
All kitchens designed for optional dishwasher	For extra home-style convenience.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Slipper guides are heavy duty ball bearing full extension	Drawers operate smoothly, easily and can support 300 lbs per drawer extension.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
All patients have adjustable pull-out drawers	Provides easy access storage.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Kitchens have as many as 20 drawers or more	Lots of storage space for pots, pans and kitchen utensils.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Residential vinyl floor tile in kitchen, entry and toilet room	Great appearance, easy to clean and maintain, long lasting.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Architectural hand crafted cabinets and woodwork with crown and dentil moldings and inlays available in 3 wood choices	Designed for the ultimate in storage offering long-lasting beauty and elegant styling. Built with the finest select Northern Red Oak or hard white maple for uniform color.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
All interior residential passage doors feature solid hardwood raised 6-panel design	Durable and durable enough for years of full-time use.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
There is One floor plan offered in five models	The ability to customize your furniture to fit your view.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Kitchen and pantry drawers are a full 24" deep	Allows for much more storage than other brands.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Max. Horsepower. Specializing exclusively in luxury class 24' models for 30 years	When you specialize in one thing you naturally do it better.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### Teton® the Number One Pick of the Stars

Teton Homes are the top choice of Movie Movers Transportation Equipment, Inc., the most respected designer and supplier of luxury equipment to the movie industry. While filming on location, top actors insist on Teton as their home away from home because our exceptional attention to detail and luxury appointments meet their exacting requirements.

### Teton® Ranked Among Industry's Best

Each year the RV Dealer Satisfaction Index (DSI) asks dealers to rank their manufacturers in several categories. Teton Homes was among seven manufacturers who earned overall ratings of 90% or higher, placing them in the RVDA quality circle. Teton was ranked first or second in the following categories: quality sales support and training, complete product design, innovative product design, and prompt service to managers/techs. Find out why our dealers and customers rate Teton first. Call (800) 335-1325 or visit [www.tetonhomes.com](http://www.tetonhomes.com).

## Friendships that Last a Lifetime

As a Tron® owner, you're invited to join Tron® Club International (TCI), a club designed exclusively for owners of our products. Members have numerous opportunities to enjoy the camaraderie of others who share a love of RVing and appreciation for the quality and beauty of Tron Homes®.

TCI offers such organized activities as an annual National Rally and numerous regional rallies which feature fabulous food, exciting excursions and educational seminars by Tron Homes' service staff and vendors of the company's RV components. You'll also receive the TCI newsletter filled with helpful tips and information about our products as well as news concerning upcoming trips and rallies.

To learn more, contact:  
Rose Jenkins, Secretary/Treasurer  
208 Kaitoko Dr., P.O. Box 40016  
Livingston, TX 77349-2000

## Wood Versus Aluminum... Which is Better?

The wood versus aluminum argument is almost as old as the RV industry. Which type of framing is best depends entirely on how you use your RV. At Tron Homes, we specialize in luxury 5th wheels designed with the full-time liver in mind. Let us examine some of the advantages of wood framed structures.

### TEMPERATURE CONTROL

In full-time RVing, temperatures can vary greatly from extreme hot to extreme cold. Wood has insulative properties that help maintain a constant and comfortable interior temperature, no matter what the weather. Aluminum conducts and transfers heat and cold from outside to inside, making heating and cooling systems work harder with less efficiency.

### CONDENSATION

Rapid temperature changes and extreme weather where interior and exterior temperatures vary greatly cause condensation in aluminum framing. Because wood maintains temperature far better than aluminum, there is no condensation with wood framing.

### WEIGHT

Overall weight is important. In small RVs, aluminum framing is lighter than wood. Large, complex 5th wheels require intensive framing and support to maintain overall integrity. That's why, in units over 32 feet in length, wood and aluminum framing weigh virtually the same.

### DRY ROT

Early manufacturing methods required many seams in RV exteriors, allowing water to get into framing and cause dry rot. Today's construction methods, including lamination, smooth siding and single piece impermeable vinyl roof, virtually eliminate the possibility of water entering wood framing and have made dry rot obsolete.

### STRUCTURAL FATIGUE

Extended road travel can cause fatigue of overall structure, particularly exterior walls. When combined with today's wall vacuum bonding techniques, wood and metal framing offer equal overall strength. However, metal framing can develop weak and dangerous stress cracks at welds and can transfer stress from one joint to another, causing failure. This cannot happen with wood framing.

### INSULATION

All RVs are framed with wood, aluminum or steel and insulated with either block foam or blanket fiberglass. Wood framing enhances insulation properties because it does not transfer temperatures like metal.

In reviewing the list above it is clear that wood framing is the best choice for our products.

For more information see page 14 for actual construction details.

Specializing exclusively in luxury class fifth wheels for 38 years.

## We do one thing and we do it right.

In 1967, Teton Homes' were built to provide oil field housing in remote locations. They weren't large or luxurious but they offered precisely what our owners needed... protection from the elements, the comforts of home and dependable performance, even in the rugged country found in the Rocky Mountain area. Although the original Teton's didn't look like today's models, they established a firm foundation for the business principles that would take us through 38 years of continuing success.

In those early years, we learned that the best way to do something well is to specialize in doing just one single thing. One manufacturer cannot possibly meet the needs of every RV enthusiast. At Teton Homes', we don't even try. Instead, we continually refine and improve the comfort and efficiency levels of our single product: luxury fifth wheels.

We listened to our customers when they told us what they needed in an RV they plan to call home 365 days a year. As a result, we increased the flexibility and comfort of our fifth wheels, developed exceptional levels of storage capacity and became the industry leader in innovation of floor plans, features and options. We never scrimped on comfort or sacrificed quality to satisfy the bottom line. Through the years Teton Homes' carved out a niche in the fifth-wheel market that is all our own. That's why Teton' is one of the world's top luxury fifth wheels and the number-one choice of America's full-time RVers.

When it's time for your RV dreams to become reality, choose the only RV whose name is synonymous with excellence. After all, we don't build just any luxury fifth wheels; we build Teton's.

One of Teton's first models built in 1967.

Teton Homes' corporate offices and production facilities with 120,000 sq. ft. under roof located just west of Casper, Wyoming.
